A walkthrough of the bulk wizard

Bulk order — teams

For sports leagues, clubs, sponsored teams. ~7 minutes.

1. **Pick the "Teams / Groups" path**
   On the Welcome screen, tap the pink card.

2. **Your Info + Order Details**
   Contact info, project name, deadline, delivery method. Then add each style with colors. Sizes for teams come on the next step (not here).

3. **Add your groups and teams**
   Create a group (or use the default). Add a team for each (style + color) combination — e.g. "U10 Boys — PC54 Blue". Pick the matching style + color chip. Enter sizes for that team.

4. **Decoration — one team at a time**
   Walk through each team's artwork page. Pick Front / Back / Sleeve, decoration method, and upload art. If a team shares artwork with another, tap "Use [Team A]'s artwork" — no re-uploading.

5. **Extras + Review + Submit**
   Optionally add backup blanks or production notes. Review the per-team breakdown. Submit — we'll have mockups + your proposal to you in 1–2 business days.

Best of both worlds
A team that shares artwork with another can still click **Customize** later if they need to deviate. Share when you can, override when you must.
